2 Preface

This document describes how to check your credits saldo for Normal or Bulk SMS without having to log onto www.targetsms.nl.

3 Usage

This application can be used in two different ways:

1. By filling in a form
2. By posting a URL

3.1 Form

Enter all required data in the form at http://www.targetsms.nl/get_normal_sms_credits:

Vul hieronder uw username en affiliate code in om uw hoeveelheid credits op te vragen:

Gebruikersnaam:	<input type="text"/>
Affiliate code:	<input type="text"/>
Handle:	<input type="text"/>
	<input type="button" value="Opvragen"/>

All fields are required. When you have entered all data correctly you will see your current amount of credits for Normal SMS.

- Gebruikersnaam is your username
- Affiliate code is your account number
- Handle is the unique code for this account. you can find your handle on www.targetsms.nl/handle

3.2 URL

It is also possible to request the current amount of credits by posting a URL.

Example:

http://www.targetsms.nl/get_normal_sms_credits?username=test&aff=12345&handle=c6886abd136f7daece35aebb01f1b713

- username is your username
- aff is your account number
- handle is the unique code for this account. You can find your handle on www.targetsms.nl/handle

3.3 Error codes

There are a few error codes that you can encounter. These are:

- U heeft geen gebruikersnaam ingevuld. This means no username entered.
- U heeft geen affiliate code (=klantnummer) ingevuld. This means no account number entered.
- De handle is incorrect. This means the handle is incorrect.
- De ingevulde informatie is incorrect. This means the data entered is not correct.

When all data is entered correctly you will be given your current amount of credits for Normal SMS.
